PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience building enterprise web applications with C#, ASP.NET Core, Web API, Entity Framework Core, SQL Server, React.js and Next.js. Experienced in RESTful API design, microservices-style architecture, Azure and AWS deployments, CI/CD, and Agile/Scrum delivery. Led a 3-member team and managed 4 concurrent client projects across the full SDLC. Hands-on with OpenAI API integration, RAG and prompt engineering for workflow automation.

TECHNICAL SKILLS

Backend: C#, .NET Core, ASP.NET Core, ASP.NET MVC, Web API, RESTful APIs, Entity Framework Core, LINQ, Node.js, Microservices Architecture, Design Patterns, OOP

Frontend: React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, React Native

Databases: SQL Server (T-SQL, query optimization), MySQL, MongoDB

Cloud & DevOps: Microsoft Azure, AWS, Docker, CI/CD Pipelines, Git

AI & Automation: OpenAI API, LLM Integration, RAG (Retrieval-Augmented Generation), Prompt Engineering, n8n

Integrations & BI: Power BI, Square POS API, Instagram OAuth, QuickBooks, Xero, Power Automate

Practices & Tools: Agile, Scrum, SDLC, Unit Testing, Visual Studio, VS Code

WORK EXPERIENCE

.NET Developer, Esferasoft Solutions | Oct 2025 – Present

- Designed and delivered new ASP.NET Core / Web API features for EsferaDesk, a SaaS helpdesk platform, improving performance and end-user usability.
- Integrated Power BI dashboards for real-time data visualization and executive-level business intelligence reporting.
- Deployed and scaled application modules on Microsoft Azure, ensuring high availability and reliability.
- Maintained CI/CD pipelines using Git and automated deployment workflows to reduce release cycle time.
- Worked with product, design and QA teams in Agile/Scrum: sprint planning, daily stand-ups and retrospectives.

Software Engineer, Ginilytics IT Solutions | Sep 2024 – Sep 2025

- Led a 3-member team delivering full-stack enterprise applications with ASP.NET Core, C#, React.js and SQL Server, from requirements to deployment.
- Managed 4 concurrent client projects across the full SDLC: development, client communication, feedback cycles and go-live planning.
- Served as primary technical contact for clients, translating business requirements into actionable development tasks.
- Optimized LINQ and SQL queries and refactored code, reducing average page load times.

Junior Software Engineer, Ginilytics IT Solutions | Jan 2023 – Aug 2024

- Built Web API backends and responsive React.js frontends for 2+ enterprise client projects.
- Integrated third-party APIs and optimized complex SQL queries, improving data retrieval performance.
- Handled client communication during User Acceptance Testing (UAT) and provided post-deployment support.
- Collaborated with senior engineers and QA teams to deliver project milestones on time.

KEY PROJECTS

Beyond OS | Next.js, Node.js, SQL Server, Azure

- Built a unified business operations platform covering chat, tasks, projects, HR, sales, reporting, resource management, billing and administration.
- Implemented role-based permissions, third-party integrations and data flows across business modules.
- Owned delivery end to end: database and Web API design, Next.js frontend, integrations and deployment.

Beyond C | .NET, Next.js, Supabase, Instagram OAuth

- Built a two-sided creator-brand marketplace from scratch (0 to 1), covering backend APIs, data flows and frontend workflows.
- Implemented campaign bidding, real-time chat, credit/wallet-based transactions and Instagram OAuth verification.

KNR POS | .NET, React Native, Square POS API, AWS

- Developed a multi-location POS platform linking a React Native app, an ASP.NET Core Web API admin panel, Square POS hardware and delivery platforms.
- Integrated Square APIs to sync orders between mobile ordering and in-store operations.

- Deployed backend services on AWS; managed client communication, change requests, sprint planning and releases.

Clubbable | Mobile, RESTful APIs, CI/CD, Azure

- Developed and maintained assigned modules for a live global nightlife booking platform, fixing production bugs and edge cases.
- Worked within CI/CD and Azure deployment workflows, validating builds before merging to the main branch.

EDUCATION

Master of Computer Applications (MCA), Online | Chandigarh University | 2023 – 2025 | CGPA: 8.1

Bachelor of Computer Applications (BCA) | T.I.M.T. | 2020 – 2023 | CGPA: 7.9

CERTIFICATIONS & AWARDS

- AWS Skill Builder Cloud Training, Amazon Web Services (Apr 2025)
- Cloud Computing Architecture, Great Learning (May 2025)
- Product Management, Great Learning (May 2025)
- Employee of the Quarter, Ginilytics IT Solutions (Apr 2025)
- All Rounder Award, Ginilytics IT Solutions (Aug 2025)
